

# PABLO SUAREZ PEÑA

BACHELOR'S DEGREE  
STUDENT IN COMPUTER  
ENGINEERING (UNED)

## ABOUT ME:

I am a Computer Engineering student, 33 years old, highly motivated to join the technology sector as soon as possible. For several years, I have led teams as a coach and manager in a sports retail company, where I gained experience coordinating people, organizing tasks, and solving day-to-day problems. This experience has taught me to adapt to changing situations and maintain a positive work environment while achieving concrete objectives.

Now, I wish to transfer these skills to the field of computer science, contributing my leadership abilities and problem-solving mindset to technological projects. I am eager to continue learning continuously while actively contributing to the challenges ahead. I am ready to integrate into dynamic work environments and add value from day one. My goal is to grow as an IT professional.

## SKILLS & ABILITIES:

I consider myself a motivated and disciplined person.

I enjoy teamwork and am decisive, solution-oriented, and possess leadership skills, with a strong focus on problem-solving.

I am creative, organized, and have great ambition and a strong desire to learn.

I am punctual, as I dislike making others wait and being made to wait.
